

# Prosperous people and places

## Our Corporate Plan 2019-2022

## Our vision:

Make our borough a great place to grow up, get on and live well

**Councillor Allen Brett**

Leader of Rochdale Borough Council

**Prosperity is the condition of being successful or thriving and that is what we want for our people and places. Prosperous people are healthy, safe, happy and able to participate fully in life. Prosperous places continually grow and change and they have strong local economies that provide opportunities and quality of life.**

Everyone in the borough will make things better for themselves and others. We will enable individuals and communities to lead change in their own lives and neighbourhoods, by having conversations and drawing upon their experiences and expertise to design and deliver the right services.

We will also provide specialist support to those that are struggling and in need of extra help. As a Cooperative Council we are committed to working with citizens and partners to make our borough a great place to grow up, get on and live well.

**We are ambitious for our people and place and our Passion to strive for excellence is what underpins our corporate plan. For many years councils have faced significant financial challenges, having to do more with less.**

While we have demonstrated resilience and have continued to deliver services and make improvements to the local area, we cannot ignore the ongoing financial difficulties that we face and the inequalities experienced by some people that live in the borough. We must adopt a Pioneering and Open approach to meet the different needs and aspirations of our diverse communities.

This involves responding positively to change, being realistic about what is practical and affordable, and working together to deliver outcomes. We are committed to our role as ambassadors for the borough and we want everyone to join us in making the borough of Rochdale a place to be Proud of.

**Steve Rumbelow**

Chief Executive of Rochdale Borough Council

## Our ways of working:

Everyone in the borough will make things better for themselves and others

### Cooperation

Public services, partners, citizens, businesses and the voluntary and community sector will share decision making and jointly design and deliver services.

### Strengthening community assets

Individuals and families will use their skills, experiences and kindness to develop and improve their own communities.

### Prevention and intervention

Public services, citizens and businesses will take action to stop problems from arising or becoming worse.

### Collective change

Individuals will practice self-help and make choices so that they are able to look after themselves and others.

### Integrated and local

Public services, partners and the voluntary and community sector will share skills, expertise and resources to deliver services at the right time and in the right places.

### Addressing the climate emergency

Public services, partners, citizens, businesses and the voluntary and community sector will increase their efforts to remove carbon dioxide from the atmosphere and reduce their own impact on the planet, to help to address the climate emergency.
