

# Welcoming NQTs to Rochdale

Rochdale Education and Learning (REAL) Trust welcomes you to the Borough of Rochdale. As an NQT you will have unrivalled access to a vast range of training and professional development courses run by locally and nationally acclaimed trainers and presenters.

These sessions include a bespoke NQT training programme which offers advice and practical information on successfully completing your NQT year. The REAL Trust also offers more in-depth and detailed training on specialist subjects and topics that will be relevant to your career as you progress through your professional working life here in Rochdale.

Courses are delivered locally in a range of settings and groups. Many of our schools work collaboratively to share joint training opportunities which will allow you to develop networks with other colleagues and schools across the Borough. Experience has shown that the development of these networks has been of huge benefit to colleagues as they share their experiences of their NQT year and grow personally and professionally as their careers develop in the schools across the borough.

We offer:

- Access to a range of training and professional development courses
- Bespoke NQT training sessions
- Training on specialist subjects and topics
- Networking opportunities
- Locally delivered courses

Education through encouragement,  
identification, dissemination and celebration
