

G-map Services Ltd
Therapeutic Practitioners (One full-time, one minimum 20 hours)
Greater Manchester

Salary £35k - £38k pro rota

We are seeking experienced and dynamic professionals who share our passion for helping children and young people with complex risks and needs to achieve good outcomes.

At the forefront of developments in the field of harmful sexual behaviour for over 30 years, G-map is an independent organisation that specialises in working with children and young people who present with sexual behaviour problems. In addition to our assessment and intervention packages we also provide bespoke preventative services, consultation and training.

We are a multi-agency team with the common goal of safeguarding the public through helping children and young people to make positive diversions from inappropriate and harmful sexual behaviour pathways. Pioneers of developing the Good Lives Model for young people, we support our service users to meet core social and personal needs in adaptive and pro-social ways. We have an established reputation for developing risk assessments and a proven track record of integrating young people in the community via our ICOPE programme.

You will have an Honours degree and a recognised qualification in Psychology, Social Work, Health or other relevant discipline and a minimum of 3 years post-qualifying experience. You will be confident in completing high quality assessments and interventions with young people, alongside representing G-map in multi-agency forums. Excellent communication and report writing skills are integral to the roles.

The posts are based in Sale, Greater Manchester, but you will be required to travel to some appointments, so a current driving license and access to your own vehicle is essential.

Whilst experience in the field of harmful sexual behaviour is highly desirable, we would also like to hear from colleagues with direct experience of working with complex trauma presentations and attachment issues and/or experience in delivering recognised therapeutic models such as Cognitive Behavioural Therapy. We would particularly welcome applicants with backgrounds in Psychology, Health, Social Work, CAMHS, Youth Offending, Probation, Criminal Justice or specialist therapeutic organisations. Good Child Protection knowledge, competence in working with complex risks and needs, ability to engage and establish rapport with young people, good organisational skills and experience in delivering training to external professionals are assets we would value.

We offer excellent terms and conditions including private pension, training, opportunities for flexible working, and a generous annual leave allowance of up to 35 days plus bank holidays. We are excited to hear what you will bring to our team!

For further information or discussion about the posts please contact Laura Wylie or Helen Griffin (details below).

For an application pack please contact us on Tel: 0161 976 4414 or at office@g-map.org or download the pack from our website, www.g-map.org

Closing date for applications is Thursday 27th January 2022
Interviews to take place week commencing 7th February 2022
