Headteacher – Mr M Couper-Barton

Dear Colleague,

Thank you for your interest in the post of Deputy Headteacher at Mayfield Primary School. This is an exciting opportunity for the right candidate, who will be motivated by the opportunity to take our school to the next level, alongside a skilled and committed SLT, staff and Trust.

Mayfield is a thriving one form entry primary school with a strong reputation within our local community, which is something we are all extremely proud of. We became part of Cranmer Education Trust (CET) in January 2016. This was an important stage in Mayfield's development and we continue to strengthen our partnership further within CET and other schools within our Multi-Academy Trust, really promoting the sense of 'One Trust: One Family'.

Our aim is to become a centre of excellence in the heart of our community; a place where all children achieve, where families feel valued and supported, and where staff are encouraged to shine and deliver the very best opportunities for all learners. Together, we believe we can make a real difference.

Mayfield had a successful Ofsted in June 2018, after previously facing some challenges. We were delighted with the 'Good' outcome and the fact that Ofsted recognised how far we have travelled as a school, within a relatively short space of time. Mayfield is on an exciting journey, and despite our many strengths and successes so far, we appreciate that we still have a distance to travel, most noticeably around standards achieved by children at each Key Stage.

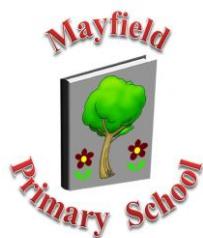

Leaders within school, our Local Committee and the Trust, are driven to ensure that the education and provision at Mayfield is high quality and enables every child to succeed. The new Deputy will contribute significantly to this.

One of our key values is: 'Let's make sure that we do not write the story for our children before they have lived it'. It is not ok that some children start below where they need to be, continue to progress below their peers and then leave at the end of primary school, below their peers nationally. Life chances are affected, and this is something that is not ok. All children have to become the best they can be and are meant to be.
